

Release Notes

These Release Notes outline changes made to Panviva (version **18.5**) that may directly affect users.

New Features

[New Analytics chart: Count of Inactive Users \(18992\)](#)

The new Inactive Users analytics chart gives a count of users who did not access Panviva application from the period selected to current date.

(Note, the Export feature, which will list the users who have been inactive, is scheduled for v18.6)

[Search API](#)

Search API enables search activities across various resource types such as files, documents, and sections. Search API can be used to fetch results that contains the searched term in its name, description, layout, content and so forth.

With the Search API, the use cases are as extensive as one can imagine different ways that this API can be leveraged.

Improvements

[Improvements to resolve service degradation caused by Welcome page update \(20055\)](#)

Improvements to the way the welcome page is fetched and stored to ensure that any changes made around welcome pages do not cause system performance issues.

[Caching of Content API](#)

Improvement to the way the content is cached for reliably faster response times while using the Content API.

Fixes

[Message Centre's 'Archive selected' or 'Archive all' messages rendered un-selectable on some devices and \(or\) resolutions \(20501\)](#)

While selecting messages in the message centre for 'Archive selected' or 'Archive All' operations, on some devices the messages rendered un-selectable. This has been corrected.

[Login using SSO authentication prevents the document link from working \(18896\)](#)

Users accessing document link by using SSO authentication for login were directed to the welcome page instead of the desired document. This has been corrected

[With SSO 'On', non-SSO users cannot change the passwords \(18055\)](#)

After setting the SSO to be 'On', the users were unable to change the passwords from the User details section in the more menu options. This functionality has been reinstated.

If this is you, and you love what we're doing,
or you have some product feedback, please
