

PANVIVA

Release Notes

19.11

We want to get better at communicating our changes with you, so we thought we'd try a new format. This document covers our changes for release 19.11

We would love to hear what you think...or even if you don't like it so we can continue to get better!

Don't forget we're here to help! So, if something doesn't make sense reach out to our CAC Team. support@panviva.com

You asked, we listened!

Display First & Last name for Feedback submissions

See who submitted feedback through Collaboration Hub more easily.

You can now see the First & Last name of feedback submitters and feedback assignee by hovering over the username on the feedback.

Section & subsection (task) mapping for feedback submissions

Understand where in the document your feedback comes from.

You can now view the section & subsection/task name of the document for which the feedback has been submitted.

We fixed it!

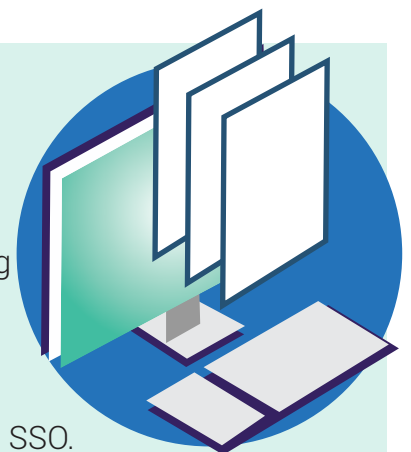

SSO Password expiry (9068)

What was happening?

Some of your users couldn't log into Panviva because of a backend setting that advised their SSO had expired..

What do you need to do?

Nothing! From now on password expiry will not affect users logging in via SSO.

Role name update error (10185)

What was happening?

Your role creators were getting errors when trying to update the name of your roles.

What do I need to do?

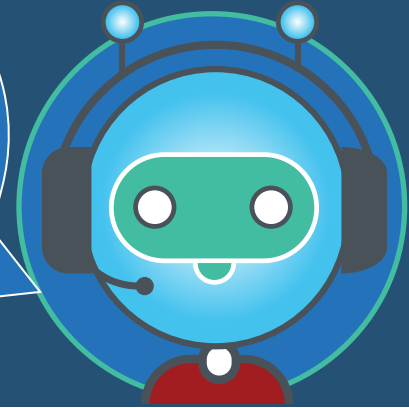

Nothing!

Release Notes

19.11

We want to get better at communicating our changes with you, so we thought we'd try a new format. This document covers our changes for release 19.11

Document Manager search showing no results (7786 & 9193)

What was happening?

There were issues with your search results (you didn't see any) when you tried sorting by name in Document Manager.

What do I need to do?

Nothing!

Cannot edit Document from Manager (5883)

What was happening?

Some of you experienced issues when trying to open the 'edit' view in the Manager (for our Desktop Users)

What do I need to do?

To fix this issue you need to upgrade your desktop version to one that we can support (to v1.3.39.0).

You might remember we sent a note about this just a couple of weeks ago, if you need more information – reach out.

We just got Better!

Orphaned documents notification in Content Curator

You will now get notifications in Content Curator when your documents in Panviva have been Orphaned. Now you can keep your Knowledge Nuggets more up to date than ever!

Content Curator wide screen support

We've given Content Curator a more modern look. This includes using more screen resolutions more effectively.

Search Artefact API filter

We've added capability to filter Search Artefact results using Content Curator fields. Now you can make your Knowledge Nuggets even easier to find!

At this stage of development custom properties filtering isn't yet available – but don't worry we won't forget.
