### **WE FIXED IT!**

#### **Undo / Ctrl Z giving unexpected results in Pop-ups (8039)**

##### **What was happening?**

While editing a Pop-up within a document, if a user pressed CTRL + Z to undo a change, text was being inserted outside of the Pop-up box.

##### **What do you need to do?**

Nothing at all, this issue is addressed in this release.

#### **Approval workflow being sent to wrong person (6947)**

##### **What was happening?**

Sometimes when a review or approval workflow was started, a previously attached workflow would commence by mistake. This would send notifications to the wrong Reviewer and Approver Users.

##### **What do need to do?**

Nothing at all, this issue is addressed in this release.

#### **Feedback (Legacy) does not generate the current link to document (15084)**

##### **What was happening?**

For customers using Legacy Feedback, the links being generated via email were broken, and not linking to the correct sub-section of a document.

##### **What do I need to do?**

Nothing at all, this issue is addressed in this release.

### **Changes to Reusable Content with a future release date not reflected in documents (6143)**

#### **What was happening?**

When documents containing reusable content had a future release date, the reusable content was not displaying when the document was published.

#### **What do you need to do?**

Nothing at all, this issue is addressed in this release.

### **Workflow cannot be started if a document is locked (17105)**

#### **What was happening?**

When a document was locked by another user, a workflow could not be started. This resulted in an error showing.

#### **What do you need to do?**

Nothing at all, this issue is addressed in this release.

### YOU ASKED, WE LISTENED!

#### Hide the Orphans Folder in Image Management from Search (4761)

We've added a filter in Image Management to help you exclude Orphaned Images from your search results.

### WE JUST GOT BETTER!

#### Save as draft on existing responses (Digital Orchestrator)

You can now save a draft from an existing response in Digital Orchestrator. This is the first governance we are adding to Digital Orchestrator to assist with customer's compliance needs.

We will be sending out a video demonstration so you can see this new feature in action!
